DC FAST & ULTRA FAST

Efacec
HV 160

Efacec
QC 45

DC Fast 50kW to 62.5kW

DC Fast chargers are entry-level fast charging solutions for small fleets, valet services, or commercial use.

Monitor your stations online 24/7 and tailor pricing between user groups, manage electrical costs, and perform remote diagnostics. These networked stations are compatible with all connectivity standards (CHAdeMo, CCS), and connectors.

We have many configuration options to choose from in order to meet all your dynamic fast charging needs.

Express 250

ABB
Terra 53 CJ

Ultra Fast 150kW to 600kW

Ultra Fast chargers are the fastest charging solutions available on the market. These chargers are designed for e-buses and other fleet applications with the longest range requirements and highest power demands. They're configurable and modular with multiple connector options, supporting both rooftop and plug-in connections.
