+1 (888) 336-3734

Give your tenants and their guests the ability to charge their electric vehicles (EVs) at their residence and you contribute to a growing mindset of **green transportation** while helping to reduce greenhouse gas emissions in your area.

Installing Verdek's EV charging stations increases the **standard of living** both at your properties and in the surrounding community.

Increase Property Value

EV charging facilities not only provide an additional selling point for potential tenants but also attract eco-conscious residents.

Create an Additional Revenue Stream

Set a charging fee to not only offset costs of station maintenance and electricity, but also build a profit margin.

Enjoy Flexible Management Options

You choose the business model and payment plan appropriate for your properties, then monitor your stations online.
