BMW i3 Electric Car Owners To Get Free DC Fast Charging Through 2015

Buyers of the 2014 BMW i3 electric car will soon get more charging options. At least, they will if they live in California.

The German carmaker is partnering with the NRG eVgo charging network to offer free DC fast charging through 2015 at NRG's "Freedom Station" public charging sites in the Golden State.

Another Record For July EV Sales In The US As Nissan And GM Lead

Verdek Launches EvChargrs

[Visit EvChargrs Now](#)

VERDEK is the leader in EV charging infrastructure for sustainable transportation; they offer solutions for residential, public and DC fast charging as well as CNG and LNG fueling stations for commercial fleets.

[EVCHARGRS.COM](#) is Verdek's new integration into the e-commerce world. EVChargrs offers direct-to-consumer products including Home Chargers and Level 2 Public Chargers and Level 3 DC Fast Chargers. With a nationwide network of authorized installers, EVCHARGRS' technical team can choose from a vast product range to provide the best solution for an in-home or commercial application.

New white paper urges utilities to electrify their vehicle fleets

Electric utilities around the world are beginning to see the benefits of e-mobility, not least because it represents a growth market for a future in which consumers will be encouraged to use less electricity. A new white paper from the Edison Electric Institute (EEI) notes that "93% of the energy consumed in transportation today comes from petroleum," and identifies this as a big opportunity for the industry.

Another record month of electric vehicles sales was logged in July for the US, as an estimated 10,533 plug-ins were sold. Compared to a year ago's 7,892 sold, a 34% increase was realized.

If that good news statement sounds familiar...well, it should, as it marks the 32nd consecutive monthly record set in America.

In other words, EVs are a hot seller. Six of the 18 mass produced plug-ins sold in the US set a new yearly high; five of those a new record high.

CARB funds new round of plug-in incentives

The California Air Resources Board has approved a funding plan for fiscal year 2014-15 that includes several new and renewed incentives for advanced vehicle technologies. The \$222 million pot of money includes \$200 million from ARB's cap-and-trade program. The agency is required by law to invest a portion of proceeds in disadvantaged communities.

"Action taken by the Board today will provide \$100 million to directly benefit disadvantaged communities," Air Resources Board Chairman Mary D. Nichols said. "The funding plan and ARB's amended 'car scrap' program together provide emission reductions for all Californians and financial incentives for those who need it the most."
