FINAL UPDATE: Plug-In Electric Car Sales For 2013 Near Double Previous Year's

In their third full year of sales, more plug-in electric cars were sold in the U.S. than ever before.

The 2013 total of roughly 96,000 electric vehicles didn't quite double the 2012 total of about 53,000, but with 16 different plug-in cars offered for sale as of this month, the numbers seem likely to grow again this year.

Got Juice? We Try ChargePoint's Smarter Charging Network BMW i3 Showcases ChargePoint's Latest Technology

ChargePoint, the nation's leading operator of connected electric vehicle chargers, is on an impressive growth spurt as of late. Have a look at the numbers: In 2013, an electric vehicle was plugged into one of ChargePoint's 8000 stations in the U.S. and Canada every 23 seconds. Nowadays, with 15,000 chargers communicating on the cloud-based network, that time shrunk to 11 seconds.

Whole Foods chose Verdek and ChargePoint charging stations for its new flagship store in Domain - Austin, TX.

Charging stations were customized with Whole Foods logo and corporate colors. These stations are the new generation of ChargePoint charging stations. The CT4000 is a dual charger with a larger screen that can be used for streaming promotional videos and corporate messages.

State of the Union Highlights Clean Energy Progress

President Obama focused on a variety of renewable energy and energy efficiency issues in his State of the Union address on January 28, highlighting progress toward a "shift to a cleaner energy economy" and spotlighting solar energy and fuel efficiency.

"The shift to a cleaner energy economy won't happen overnight, and it will require tough choices along the

Italian electric superbike maker: Race on Sunday to sell on Monday

Motorcycles represent one of the most exciting, and potentially profitable, niches for EVs. Many motorsports enthusiasts predict that it's only a matter of time before electric two-wheelers totally dominate the racetrack. However, the potential for huge sales is found on the streets of the developing world, where a motorcycle is more likely to be an economical form of daily transport than a cure for a midlife crisis.

NASCAR and Sprint Join Energy Department's Workplace Charging Challenge

Officials from the Energy Department, NASCAR and Sprint Corp. announced the companies' participation in the Department's Workplace Charging Challenge -- a collaborative effort to increase the number of U.S. employers offering workplace charging by tenfold. The Challenge also supports the broader efforts of the Department's EV Everywhere Grand Challenge to make plug-in electric vehicles (PEVs) as affordable and convenient for the American family as gasoline-powered vehicles within the next 10 years.
